

Gentlemen: Please reject NAB petition 04-160. I subscribe to satellite radio precisely because the broadcasters were NOT giving me the information I wanted, when I wanted it. The variety and clarity of the signal is stupendous. It probably has succeeded so well precisely because government stayed the hell out of its way. The old adage 'I'm from the government and I'm here to help you' causes anyone in business to quake with trepidation. Please do us all a favor and leave satellite radio alone to continue developing. Sincerely, Michael J. Green
